What's New in the?

Spelling for Grade 2 - List 6 is an educational software which can be used to learn new words and new spelling patterns. It is designed as a Java application. The objective of this application is to make the teacher's work more efficient, by helping the students in the learning process. The interface is designed for novice users. The program consists of the following sections: a) Word Scrambler; b) Word Lexicon; c) Word Scrambler Exercises; d) Word Ordering; e) Sentence Completion; f) Word Ordering Exercises; g) Sentence Completion Exercises. In the Word Scrambler section you can scramble words or groups of words according to a given list. In the Word Lexicon section, you can choose words from a list or from a dictionary. The selected words are shown in the word Scrambler section, so that the student can learn and memorize the spelling patterns of those words. In the Word Scrambler Exercises section, the word Scrambler provides a list of words, according to the selected list. The student may scramble or unscramble those words. The scrambled words are shown in the Word Lexicon section. The Word Ordering section allows the student to identify the words to be unscrambled and the word order. The student can select any words from the Word Lexicon list. The words that are selected are ordered in the Word Lexicon according to the letters position in the word. The Sentence Completion exercises, in the Sentence Completion section, are based on three types of sentence: simple, complex and complex modified. The student is required to unscramble the selected words. In the Word Ordering Exercises section, the student is required to unscramble the words that are ordered in the Word Lexicon.
