### What's New in the?

Fabreasy PDF Creator is a small-sized software utility specifically designed to add a letterhead while converting Microsoft Office, OpenOffice and LibreOffice documents to PDF files. The application features an intuitive and user-friendly interface that consists of a small window that can be moved and placed anywhere on your desktop. Insert letterheads to created PDF files The program's main function is to convert DOC, DOCX, ODS, ODT, XLS and XLSX documents to PDF files while appending a customized letterhead. The letterhead can be placed on the background or foreground of the specified document page. Besides the letterhead, you can add a second template and place it on every page or starting from the second page up to the last one. Furthermore, from the Setup window, you can select the PDF file you want to use as letterhead either from your local computer or from the cloud. To activate the cloud option, all you need to do is create an online account, and then you are able to upload and download designs. Drag-and-drop documents to be automatically converted to PDF To create a PDF file, you simply need to drag-and-drop the Office document on the application's dedicated icons. Besides converting the files, Fabreasy PDF Creator allows you to print, save and email them as attachments. You have the possibility to modify email templates, select printing devices, overwrite original PDF files or save the converted documents anywhere on your computer or removable device. A very useful feature is that you can perform all these actions with a single drag-and-drop movement. The magic wand icon automatically saves, emails and prints the document as soon as it is processed, saving you a lot of time by performing all three actions in just seconds. Also, if you do not prefer these actions to be executed automatically, you can process documents manually and view the results within the application. Reliable PDF converter All in all, Fabreasy PDF Creator is a practical software solution for applying letterheads to your documents while converting them to the PDF format. During testing, the application

---

responded promptly to commands and was fast to convert files. Features: Compatible with all versions of Windows Compatible with OpenOffice, LibreOffice, Microsoft Office Features a wizard to easily add letterheads Adds customized text at the top of the PDF file Can be used on the front or back of the document Append letterhead to PDF files Create letterhead PDF from Doc, Docx, ODS, ODT, XLS and XLSX files Settings Opens options to select the PDF file you want to use as letterhead Allows the user to select the Letterhead Text Color and Font Style The following colors are available: Select if the background or the text should be white
