In my GET request, I have changed the URL to include the following in the url part: "expiration_date": "", "campaign_name": "", "campaign_type": "", "approx_target_impressions": 1, "expired_at": 0, "group_id": 0. The params are being pulled from the Android app on the server side and the response is being sent back to the Android app from the server. The only thing that I haven't figured out yet is how to send a PUT request to my server. I have used the following approach to make the POST request: private void 3c33713323
